Pharmacy Pick-Up and Delivery
General Instructions from Rapp at Home
As of April 16, 2020*

*NOTE: We have attempted to reflect accurately information available to Rapp at Home as of April 16, 2020. However, this is intended as general information ONLY and Rapp at Home cannot in any way guarantee the accuracy of this information. Contact the pharmacy in question to find out specific information as to their ordering and other guidelines and requirements.

Rapp at Home offers Grocery and Prescription Pick-up and delivery service to members. During the COVID pandemic, our volunteers have agreed to expand this service to Rappahannock County residents who need it, as we are able.

If you are a senior or other person concerned about going into a pharmacy, this might be a useful service. Please consider these options:

- You or your doctor call in your refill or new Rx order to a pharmacy and a Rapp at Home volunteer can deliver the prescription to your door.
- Many of the pharmacies have either a drive thru or curbside pick-up
- NOTE that many will also ship or mail your prescription free of charge during the pandemic.

There is a wide variation in the ways local pharmacies are assisting folks during the pandemic. Please see the list of pharmacies below.

If you do not wish to have your prescription mailed to you free of charge through the pharmacies that offer that service, Rapp at Home volunteers can pick-up your order and deliver it to your door. There will be no person-to person contact between you and the volunteer.

Our volunteer will call you to let you know when they will arrive at your home. hey will then leave the items on your doorstep and get back in their car. Unless you have made other arrangements with the driver, they will wait for you to retrieve your parcel.

Below is a list of the pharmacies by town, their physical address, phone number, and specific stipulations. If you have any questions about how to order, please contact the pharmacy directly.
